**PROGRAM: CONCRETE CURING SYSTEMS**

***Presented by James Buchanan & Dennis Fife of Concure Systems***

They described changes in curing products since the EPA disallowed solvent-based products for floor covering adhesives.

Products were described that bind with concrete materials to stop capillary action, thereby holding moisture in the slab.

The actual applications of curing products were reviewed.

Questions and answers followed the presentation.

The meeting was adjourned at 1:15 pm.

Submitted by Bruce Richey, AIA, Chapter Secretary.
